FLUID MANAGEMENT & FLOOR SAFETY

# Quiet Big FOOT® Suction Disc

The patented vortex suction disc that clears fluid off the OR floor without the noise. The best and least expensive suction disc on the market.

- Patented vortex technology pulls fluid off the floor continuously, so spills never get the chance to spread
- Runs quiet enough that staff forget it is there, which matters during noise-sensitive procedures
- Wet floors are the root cause of OR slips and falls. This removes the cause instead of managing it
- Connects to the suction you already have. No capital purchase, no new equipment to service
- Designed and manufactured by Big FOOT since 2012
